

Santa Barbara County Riding Club Rule Book 2024

The purpose of this Rule Book is to provide guidelines for the qualifications of Santa Barbara County Riding Club approved shows and to explain the point system for year-end awards. When a problem arises where interpreting the rules to the letter cannot be solved, the solution to be adopted should follow as nearly as possible the spirit of the rules.

DIVISION RULES

AMATEUR/JUNIOR MEMBERSHIP DEFINITIONS

A Junior is any individual who has not reached their 18th birthday as of December 1 of the current competition year. The age of an individual on December 1 will be maintained throughout the entire competition year.

Persons born December 1 assume the greater age on that date. If a competition is in progress on or before November 30, junior status at the start of the competition will be maintained throughout that competition. Juniors may not show stallions.

An Amateur is any individual who has reached their 18th birthday by December 1 of the current competition year who has not received any compensation or payment in any form such as cash, goods, sponsorships, discounts, housing, board or training in exchange for riding, exercising, showing, training or schooling horses for others. Entries must be paid directly to the horse show from the amateur or by the amateur's family. An amateur can perform the following:

- serve as a camp counselor but not hired in the exclusive capacity as an equestrian instructor.
- teaching or training therapeutic or disabled riders for therapeutic purposes is allowed.
- accept a non-monetary token gift of appreciation valued less than \$1000 annually.
- accept remuneration as a social media influencer or social media brand ambassador.
- assist in setting schooling fences without remuneration.
- accept remuneration for barn duties on or off competition grounds, including but not limited to grooming, tacking and untacking, bathing, clipping, lunging, braiding and stall and tack cleaning.

If a written complaint is filed with the board challenging the amateur status, the amateur shall submit verifiable proof of amateur status including but not limited to pay check stubs and bill of sale on the horse the amateur is competing. If the Board deems such proof insufficient, the board may initiate suspension and return of awards and points.

TACK & ATTIRE

Martingales - Classes offered at 1.30m or below have no martingale restrictions when used in a conventional manner. Only running martingales used in the conventional manner are allowed for classes offered above 1.30 (and all classes restricted to young horses). Running martingale used in the conventional manner: Only one martingale stopper per rein is allowed. The stopper must be positioned between the ring of the martingale and the attachment of the rein to the bit, hackamore or bridle. Exception: Irish martingales are permitted in all classes. Martingales are not permitted in any flat class.

Whips - Competitors are prohibited from using a whip that is longer than 30" (75cm) while in the process of jumping or schooling over fences. A rider may not carry more than one whip. Whips that are weighted at the end are prohibited at any time.

Curbs - When using a curb with any leverage bit, it must be constructed of loose links, joints, and/or lie smooth against the jaw of the horse and be free of twists, sharp objects or anything inhumane. A curb may be wrapped or inserted into a cover for the comfort of the horse. A curb may not be used in conjunction with wire, metal, rawhide, metal "keepers", or any other substance except for attachment of curb to the bit.

Draw Reins/German Martingales - Draw reins and German Martingales may only be used when schooling or in classes with no prize money that are offered at jumper classes 1.20m or below. Ponies may not be ridden by a Junior in draw reins or German martingales at any time. No other headset devices (chambon, etc.) are permitted in any class. Draw reins and German Martingales are not permitted in any hunter or equitation classes.

Tied Stirrups - Any rider competing with their stirrup, stirrup leather or foot tied and/or secured in any manner, will automatically be eliminated from that class. Riding anywhere on the competition grounds with stirrup, stirrup leather or foot tied or otherwise secured is cause for disqualification, by the steward or show manager, of that rider from the subsequent class in which the rider is entered.

Bits/Bridles - Regulation snaffles, Pelhams, and full bridles, all with cavesson-type nosebands are recommended. A judge, at his/her discretion, may penalize a horse with a non-conventional type of bit and/or noseband.

All professionals and non-professionals riding at a SBCRC show must wear securely fastened protective headgear which meets or exceeds ASTM/SET standards and carries the SEI tag. Any rider violating this rule at any time must immediately be prohibited from further riding until such a headgear is properly in place.

Hunter and Equitation riders shall wear a hunt coat, breeches and boots or jodhpurs and jodhpur boots for appropriate age group. Jumper riders may wear the same attire as Hunter and Equitation riders or shirt with collar, breeches, and boots.

ADDITIONAL REGULATIONS

Mules may show at SBCRC.

Show Champion to be determined by 10, 6, 4, 2, 1, 0.5. Ties to be broken by points in over fences classes.

In the case of a tie, the horse or rider with the most points over fences will be given the championship. If a tie still exists, the horse or rider with the most blue ribbons will be given the championship. As a last resort, a flip of the coin will decide.

Any SBCRC Horse show, which receives a rating from a separate governing body, such as SCHJA or USHJA shall conform to the applicable rules then in effect for the rated classes and sanctioned by such governing body. Management reserves the right to refuse, accept conditionally, or cancel entries, awards or prizes, and/or adjust the time schedule, combine, scratch or move classes as necessary, without claims or damage.

DEFINITIONS OF DIVISIONS

HUNTER DIVISION

All horses must be serviceably sound. The traditional manner of jogging for soundness in rated hunter divisions (i.e. Performance Hunters, Junior Hunters, etc.) has been modified. Soundness will be shown under saddle by trotting a circle on a long rein at the end of each over fences round.

Performance of a working hunter is based on an even hunting pace, manners, and way of going. Hunters under saddle are to be shown at a walk, trot and canter, both ways of the ring. Light contact with the horse's mouth is required. Horses should be obedient, alert, responsive, and moving freely. They should not be eliminated for slight errors. Horse may be asked to hand gallop collectively, one way of the ring, at the discretion of the judge. Not more than eight will be asked to hand gallop at the same time. Horses are not to gallop in baby green hunter classes.

A hunter course shall be any course which management deems a fair test of a hunter. Fences shall simulate obstacles found in the hunting field, such as natural post and rail, brush, stone wall, white board fence or gate, chicken coop, aiken, hedge, oxer, etc. Oxers are not to be square.

In SBCRC Hunter classes, points won on the flat will not count for Show Champion or Year-end Awards, unless the hunter competes in at least one class over fences (must jump at least one jump on course) in the same division, per show entered.

If jumping order is established, it must be posted at least one half hour before class.

GENERAL FAULTS

When an obstacle is composed of several elements in the same vertical plane, a fault at the top element is the only one penalized. In combinations (in and out) the faults committed at each obstacle are considered separately. In case of a refusal or run-out at one element of a combination, entry must re-jump all elements.

Judge shall penalize unsafe jumping and bad form over fences, whether fences are touched or untouched.

EQUITATION DIVISION

Rider should have a workmanlike appearance, seat and hands light and supple, conveying the impression of complete control. Hands should be over and in front of horse's withers; knuckles thirty degrees inside the vertical; and hands slightly apart, making a straight line from horse's mouth to rider's elbow. Eyes should be up and shoulders back. Toes should be at an angle best suited to rider's conformation; ankles flexed in; heels down; calf of leg in contact with horse and slightly behind girth. Irons should be on the ball of the foot. At the walk and slow trot, the body should be vertical; posting trot inclined forward; canter halfway between the posting trot and the walk; galloping and jumping have the same inclination as the posting trot.

In Equitation classes, only the rider is being judged; therefore, any horse suitable for a particular style of riding, and capable of performing the required class routine, is acceptable. Unsoundness shall not penalize a rider, unless sufficiently severe to impair required performance. Boots and conservatively colored bandages are permissible.

In SBCRC Equitation classes, points won on the flat will not count for Show Champion or Year- end Awards, unless the rider competes in at least one class over fences (must jump at least one jump on course) in the same division, per show entered.

Performance begins when a horse enters the ring or is given the signal to proceed after entering the ring. Except for refusals, jumping faults of the horse are not to be considered, unless they result from rider's inability.

The following are tests which the judge may ask to be performed:

1. Work collectively or individually at a walk, rising/posting trot, and/or sitting trot, and/or canter.

2. Downward Transition Test: a) Walk (4-5 steps) b) Halt (4-6 seconds) c) Halt and Back for (3-5 steps). When riders working collectively are asked to halt and then back, they should walk forward a few steps and halt again after backing and then proceed with any further instructions from the judge.
3. Question(s) regarding basic horsemanship, tack or equipment and/or conformation. The judge may ask question(s) that are appropriate for the level of expected skill of any given class or specifications.
4. Working either collectively, or individually, riders may demonstrate the lengthening or collection of strides on the flat at the walk, sitting or posting/rising trot and/or canter.
5. Figure Eight at the trot, demonstrating change of diagonals. In any Figure Eight movement, the rider should start at a center point at the halt. To finish the movement the rider is to return to the halt at the same position as the point of commencement.
6. Figure Eight at the canter on the correct lead. In this movement, the rider will begin at the halt and demonstrate a simple change of lead. This is a change whereby the horse is brought back into the walk or trot (either is acceptable unless the judges specifies) and then restarted into a canter on the opposite lead. In the center of the figure, then will proceed to the second circle on the opposite lead. The rider will halt in the center at the same point of commencement to finish the figure.
7. Jump a shortened course. The riders must jump all obstacles in the same direction of the original course unless the judge clearly states that a jump be attempted in the opposite direction of the original course. If the judge requests that a jump be used in the opposite direction it must be a vertical and the ground lines must be correct.(See EQ 102.11)
8. Jump low obstacles at a trot as well as a canter. The maximum height of trot jump is determined as 6" lower than class requirements and is not to exceed 3' for horses and 2' for ponies. Oxers may be used as a trot jump in classes listed at 3'6" or higher.
9. Demonstrate a half- turn or a half-turn in the reverse. In all cases where a figure is requested between 2 jumps that requires a change of direction, the rider will not be charged for crossing their path nor will this count as a refusal between the obstacles.
10. Change leads on a line demonstrating simple or flying changes. The simple change is whereby the horse is brought back into the walk or trot (either is acceptable unless the judges specifies) and then restarted into a canter on the opposite lead. The flying change is performed in one stride with the front and hind legs changing at the same moment. The change of the leading front and hind leg takes place during the moment of suspension.
11. Figure Eight at the canter demonstrating flying changes of leads. Like all Figure

Eight movements, the rider is to first halt at a center point. The flying change is performed in one stride with the front and hindlegs changing at the same moment. The change of the leading front and hind leg takes place during the moment of suspension.

12. Collection of strides between 2 fences. It is recommended that a line chosen for this test be not less than 70'. a. For safety purposes, judges may only ask for additional strides to be added and must not ask riders to leave out a stride.
13. Work collectively or individually at the walk, posting/rising trot and/or canter without irons. In any case where riders are asked to perform without irons they must be allowed to walk or halt and be afforded the opportunity to cross their irons if they wish.
14. Execute serpentine at a trot and/or canter on the correct leads. If trotting, the rider is to demonstrate the changes of diagonals at the center points of the figure, if cantering, the rider should demonstrate the simple or flying changes of lead in the center of the figure. This is a change whereby the horse is brought back into the walk or trot (either is acceptable unless the judges specifies) and then restarted into a canter on the opposite lead.
15. Canter on the counter lead on the flat. For the purposes of Hunt Seat Equitation on the flat, a counter canter is defined as a balanced canter on the outside lead. If working collectively, no more than 12 riders may counter canter at one time. Riders must complete one full revolution around the arena in each direction.
16. A canter on the counter lead may be used on the approach to a jump. For the purposes of Hunt Seat Equitation over fences, the counter canter is rider-invented gymnastic exercise designed to improve balance and suppleness. When utilizing this test, riders may be asked to: 1. Approach a single jump on a counter lead. This test requires riders to make at least ONE turn or bend of a course of not less than 90 degrees and not more than 120 degrees on the counter lead. 2. Demonstrate a counter canter between 2 jumps on the course. For this test, the rider upon landing off the first jump can choose from the following acceptable options: a) If the rider lands firstly on the inside lead, he/she may demonstrate a simple or flying change of lead before cantering through the first 90-120 degree turn and continue to hold the counter lead to the next jump. Either the simple or flying change is acceptable. b) If the rider lands firstly on the outside lead, he/she may continue to hold the outside lead to the next required obstacle. c) A judge can not require a rider to land on the counter lead.
17. Demonstrate a turn on the forehand done through the halt.
18. Demonstrate a turn on the haunches done from the walk.
19. Demonstrate Shoulder-in, Shoulder-out, Haunches-in, Haunches-out, Half pass or Leg Yield in both directions at either the walk or the sitting trot.
20. Hand Gallop. A hand gallop may be used either when riders are working collectively or individually on the flat and it may also be used on the approach to

a jump. The rider must be in a half-seat when executing the hand gallop. A hand gallop may not be requested into or out of a related distance line.

21. Ride without stirrups over fences. The riders must be allowed to remove the irons from the saddle or cross them if they wish.
22. Demonstration ride of approximately one minute. Riders must advise the judge(s) beforehand what ride he/she plans to demonstrate.
23. Change horses. (Note: this is the equivalent of two tests.) Riders will only change horses for Championship classes. Riders will not be asked to ride a different horse unless he/she has ridden the course on his/her own horse first. a) When a swap of horses is requested, the rider must be given a minimum of 90 seconds to do a brief flat and jump no more than two (2) schooling jumps. b) Riders may be requested to jump a previous course or a portion of the previous course. Tests 1–22 shall not be included even if included in the former course.

HOBBY HORSE DIVISION

What is Hobby Horse? Competitive hobby horsing originated in Finland and has more than 10,000 active participants. Competitions have been seen repeatedly on mainstream media outlets and social media platforms.

Riders participating in competitive hobby horsing – a toy consisting of a stick with a model horse head – perform and mimic the movements and technicality of horseback riding, then translate that to their stick horse, where judges mark and score their rounds.

Open to riders of all ages, including traditional equestrian professionals. Riders must complete the flat class with their hobby horse. Riders can choose to jump with their hobby horse or go “bareback” (not use the hobby horse) while jumping. Not specific attire required; though it is recommended that participants wear comfortable, athletic attire and running shoes or tennis shoes.

Rider who accumulates the most points from all Hobby Horse classes will be the division champion and eligible for any cash or equivalent prizes.

Hobby Horse Flat: Open to all riders. To be judged on the movements and responsiveness at the walk, trot, and canter in both directions. Riders may be asked to shorten or extend stride, halt, and backup.

Hobby Horse Equitation: Open to all riders. Course to be a minimum of 6 fences. To be judged on rider's way of going, pace, line, and rhythm.

Hobby Horse Chase-Me-Charlie: Open to all riders. Every round, 1 jump gets higher until only one rider is left. If rider knocks over or stops at the fence, rider is eliminated. Winner is able to jump the highest fence.
